IMAGINE ONE HEART

The Asian Para Games began in 2010, inheriting the spirit of FESPIC Games in 1975, that had been led by Japan's movement as a sport event for para athletes in the Far East and South Pacific region. The Games held every 4 years inspires the world with new surprises. Athletes overcoming their challenges shows us diversity and gives us hints to realizing an inclusive society. This Games is created by imagining the burning passion and uniting all the hearts together as one. In 2026, Asia's biggest para-sports event is coming to Aichi-Nagoya.
